Tushar Bisen

Full Stack Java Developer

✉ tusharbisen8@gmail.com   📞 8668360956   in [LinkedIn](#)   ○ [GitHub](#)   🔗 [Portfolio](#)

📍 Nagpur, Maharashtra

Profile

I am a **Full Stack Java Developer** with proficiency in **Java, Spring Boot, Angular, React and MySQL**, specializing in **RESTful API development and scalable backend solutions**. Proficient in **building secure, high-performance applications** with **JWT authentication.** Passionate about **problem-solving, database optimization, and enterprise application development**.

Education

ARC Technologies & Institutions, **Java Full Stack Development Career Program**   2024 – 2025 |Nagpur, India

Priyadarshini College Of Engineering,   2021 – 2024 | Nagpur, India
B. TECH (Electrical Engineering)

Technical Skills

Html | **CSS | Tailwind CSS** | **JavaScript** | **Angular** | **React** | **Java** | **Typescript** | **MySQL** | **Spring Boot** | **Git** & **GitHub |**

Projects

JANMAT (Full Stack Project with Angular)

02/2025 – Present 📅

Technologies: Angular, Java, Spring Boot, MySQL
- **Developed a web platform for government transparency, enabling voters to review leaders, submit complaints, and track fund utilization.**
- **Implemented Spring Boot for backend services, Angular for frontend, and MySQL for secure data storage.**
- **Enhanced civic engagement by integrating a polling system and interactive dashboards for leader performance visualization.**

Employ Management System (Full Stack Project with React)

01/2025 - Present 📅

- The Employee Management System is a web-based application that performs full CRUD operations to efficiently manage employee records, including creation, retrieval, updating, and deletion.
- **Tools & Frameworks:** Java, Spring Boot, MySQL, React, REST APIs.
- Impact: Improved HR efficiency with automated workflows, enhanced data security with role-based access, and optimized database performance for faster processing.

Portfolio Website: https://my-portfolio-github-xv76.vercel.app/

12/2024 - Present 📅

- Developed a personal portfolio website using **HTML, CSS, and JavaScript** to showcase projects and skills.
- Hosted the website on **Vercel** for live deployment and accessibility.
- Pushed the project to **GitHub**, maintaining version control and enabling collaboration.
